Detailed Action

Drawing

1. The Examiner accepts the drawing correction filed on 01/12/2004.

Allowance

2. In reference to claims 1, 13, 22, 28 and 53-56: *Helf, Jr. et al.* (U.S. Patent 3,764,995) teaches a method for monitoring operational parameters of a system of electrical components (devices or units under test (UUT)) (see *Helf, Jr. et al.*, Fig. 2 and column 1, line 50 to column 2, line 21). The method includes:
 - Storing in a memory circuit of each component identity data respective of an identity of the respective component in the system (see *Helf, Jr. et al.*, column 2, lines 28-35 and column 5, lines 4-27);
 - Sensing operational parameters (stimuli) of each component and processing the sensed parameters in the respective component (see *Helf, Jr. et al.*, column 2, lines 53-66);
 - Transmitting the sensed parameters and the identity data of the respective component (Unit Under Test) back to the monitoring station (computer) (see *Helf, Jr. et al.*, Fig. 2, Test data to computer station)

- Generating a user viewable monitoring display of the parameters by component based upon the sensed parameters and identity data (see Helf, Jr. et al., column 4, lines 25-32).

As for testing or monitoring the devices over the network, Helf, Jr. et al. further shows that the monitoring apparatus or computer is also networked to test or monitor the electronic component or device from a remote site (see Helf, Jr. et al., column 2, lines 3-5 and column 7, lines 30-56).

However, Helf, Jr. et al. does not teach a viewable representation of the devices or physical layout data of individual components.

As noted above, the claimed invention provides a method for monitoring operational parameters of a system of electrical components. Further, the method includes generating a series of user viewable representation of operational parameter based on the physical layout of each component.

The remaining claims are dependent upon claims 1, 13, 22 and 28 and contain further limitations.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
